**DISC** 2024  
FOR & BY THE SPACE  
& DEFENCE INDUSTRY

## From Asymmetric to Symmetric

1 COMSEC

2 TRANSEC

3 Interference Mitigation

4 LPI/LPD/LPG/LPE

5 PACE / Diversity

Sequence & Orchestration

Multi-Layered Security & Resiliency

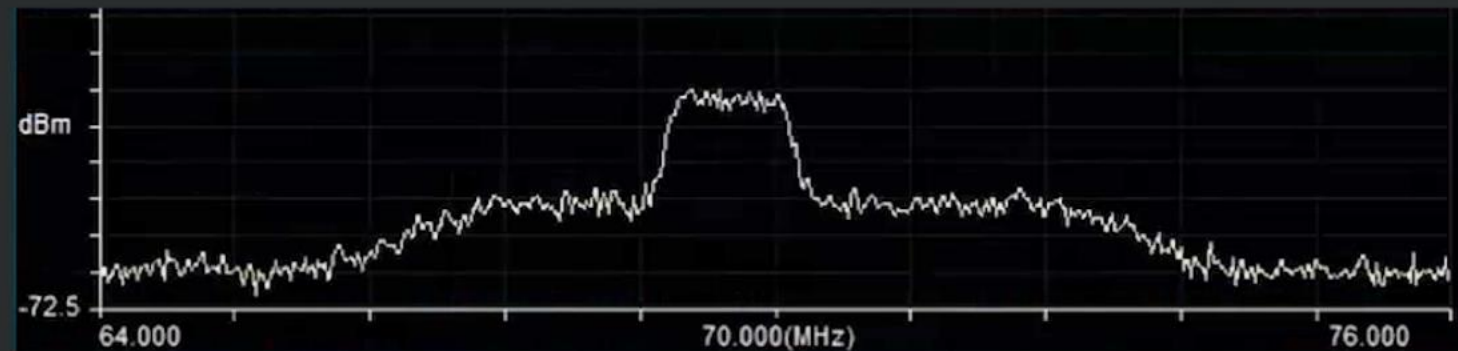

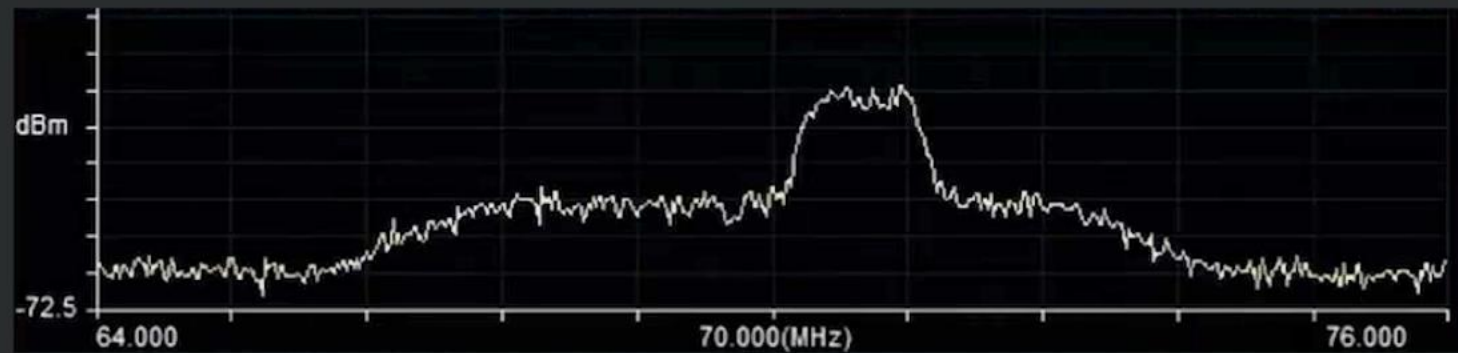

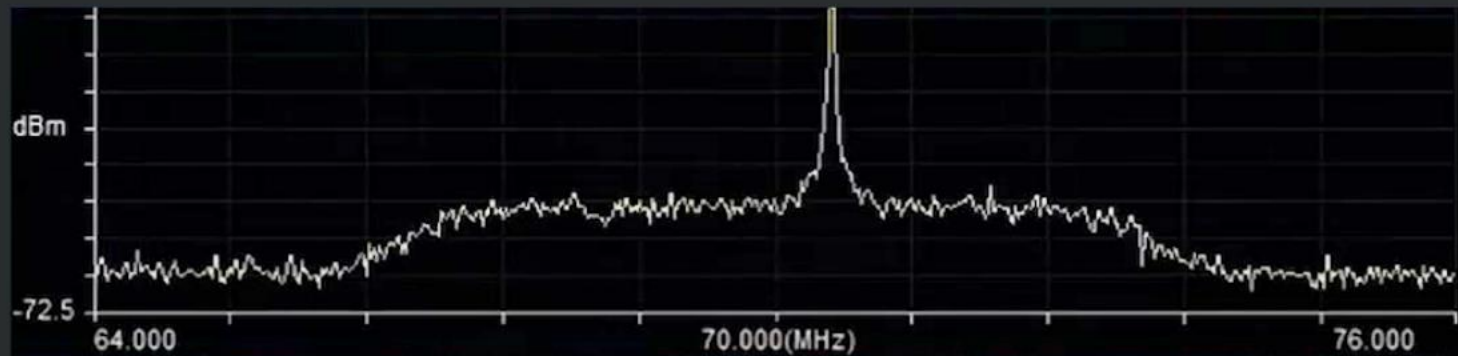

## Interference Mitigation **REQUIREMENTS**

- Keep users connected
- High Performance
- No extra Overhead
- No need to know source
- Wide range of interferers
- In line with deployed Baseband

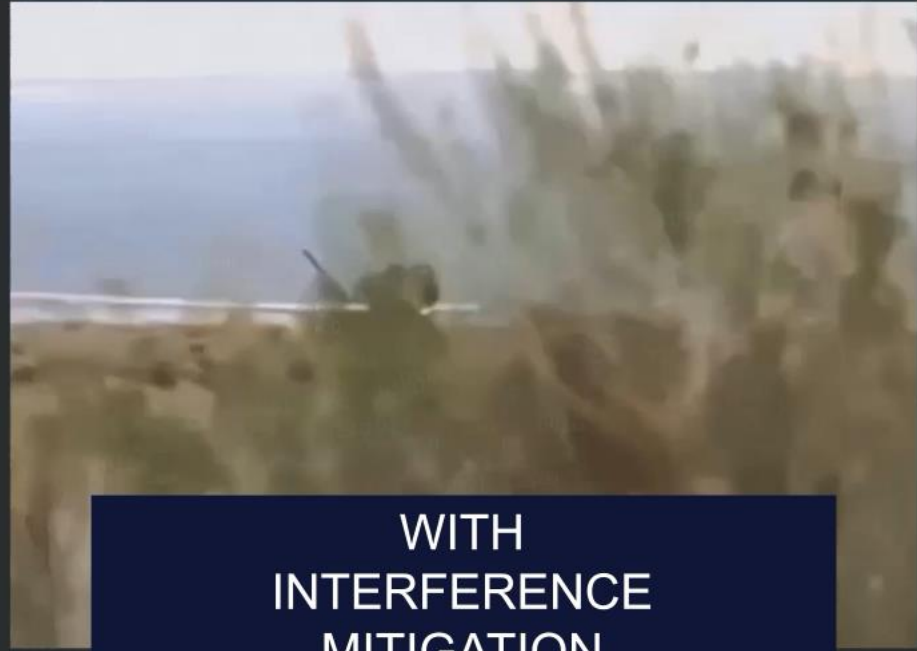

# SWEEPING, HOPPING, STATIONARY

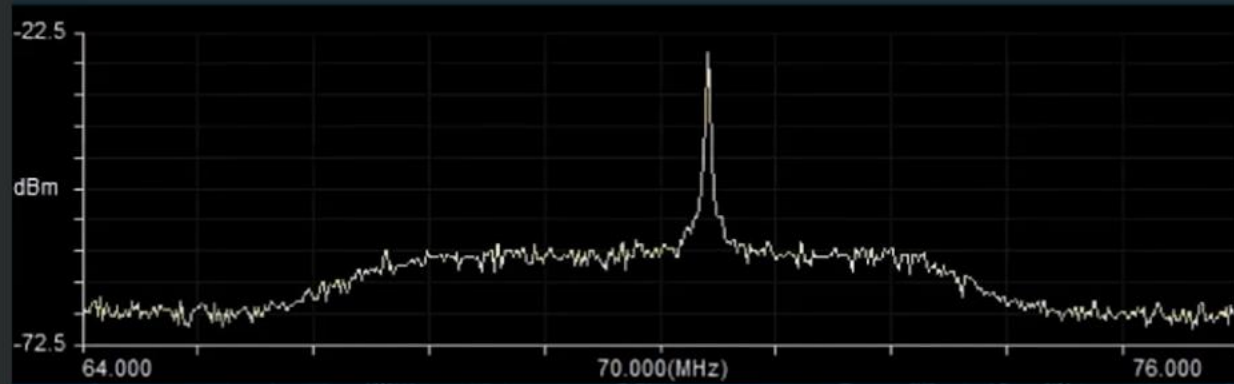

WITHOUT  
INTERFERENCE  
MITIGATION

WITH  
INTERFERENCE  
MITIGATION

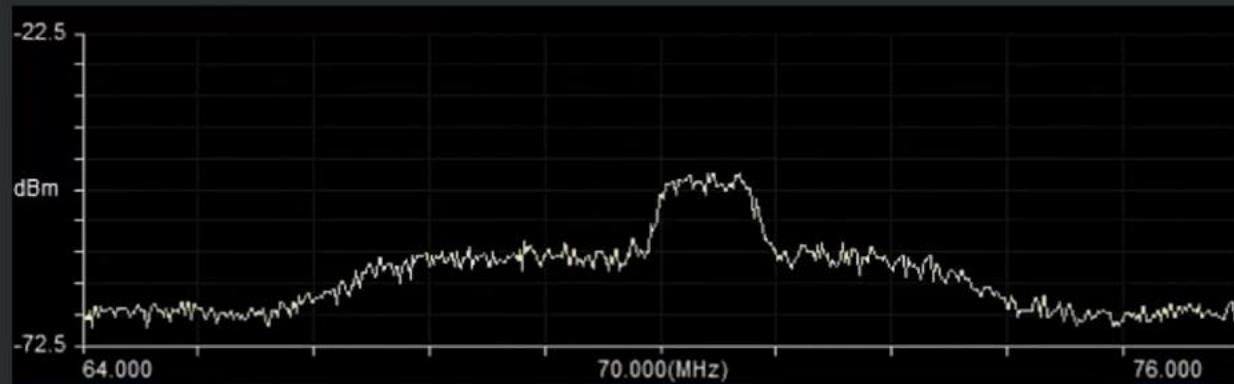

WITHOUT  
INTERFERENCE  
MITIGATION

WITH  
INTERFERENCE  
MITIGATION

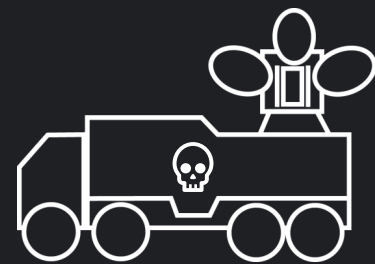

- Anti-Interference Technology
- Real-time Streaming
- Interferers isolation and removal
- Inserted in receive chain

WHAT?

HOW?

WHY?

Introducing CSIR™

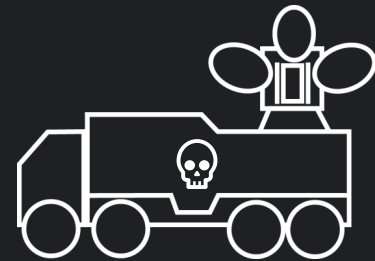

- Any digitally modulated carrier
- Interferer isolation and removal
- Natural or Manmade interference mitigation
- Wide range of interferers

WHAT?

HOW?

WHY?

Introducing CSIR™

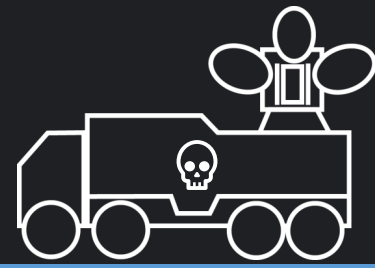

- No need for prior information
- No Need for additional bandwidth
- On iDirect Evolution Defense or as separate technology

WHAT?

HOW?

WHY?

Introducing CSIR™

## CSIR™ powered by iDirect EVOLUTION DEFENSE

Your Stronghold for Reliable, Secure, and Resilient VSAT Networks

- Resilient and Secure
- WGS Certified (release 4.4.3)
- Agile & High Performance
- Optimized for Size, Weight, and Power (SWaP)
- COTP/COTM Defense Aero/Naval/Land
- Large Installed Base – Proven Solution

Multi-Layered Security & Resiliency

## Conclusion

---

### Secure your networks

CSIR™ & TRANSEC on iDirect Defense VSAT Platform

## Test & Try in Belgium or on-site

# GOVERNMENT SOLUTION OF THE YEAR

“We empower innovations and drive progress for our secure communications solutions.

This win is for our dedicated team of developers, engineers and experts who bring secure connectivity to the tactical edge. ”

–Tim Winter  
President, iDirectGov

iDirect Government
